EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Lueders on 12/27/2004.

The application has been amended as follows:

Claims 30, 34-45, 48-50, 53, and 56-58 have been cancelled.

Claim 27 has been replaced with the following:

27. A diagnostic and therapeutic instrument, comprising:

a body having a first upper surface, a second lower surface disposed opposite from said upper surface, and opposing lateral surfaces, said upper and lower surfaces converging at a first end to define a blunt tissue-engaging edge and diverging at an opposing second end to define a comparatively larger second end defined by a surface extending between said upper and lower surfaces, said opposing lateral surfaces extending vertically between said upper and lower surfaces and longitudinally between said first and second ends of said instrument body; wherein said instrument body is constructed of a resin ceramic composite material having resonant capabilities such that said body aids in diagnosis and treatment of fibrotic soft tissue.

Art Unit: 3764

Claim 31 has been replaced with the following:

31. A hand-held instrument for engaging and applying pressure to the skin of patient in the diagnosis or treatment of underlying fibrotic soft tissue, comprising:

a rigid unitary body having an upper surface, a lower surface disposed opposite from said upper surface, said upper and lower surfaces converging at a first end to define a blunt tissue- engaging edge generally coinciding with the intersection of said upper and lower surfaces and diverging at an opposing second end to define a comparatively larger second end disposed opposite from said first end, and opposing lateral surfaces extending vertically between said upper and lower surfaces and longitudinally between said first and second ends of said instrument body.

said upper surface being defined by a gradually convexly curved surface extending at least partially and longitudinally along the length of said instrument body between said first and second ends thereof,

said lower surface being defined by a gradually yet continuously concavely curved surface extending substantially and longitudinally along the entire length of said instrument body between said first and second ends thereof; and

wherein said lower surface is substantially planar in a transverse direction to the length of said instrument body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

also being

instrument body between said first and second ends thereof; and

substantially planar in a transverse direction to the length of the instrument body.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang D. Thanh whose telephone number is (571) 272-4982. The examiner can normally be reached on Monday-Thursday & alternate Friday.

Application/Control Number: 10/677,281 Page 5

Art Unit: 3764

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Justine Yu can be reached on (571) 272-4835. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306 for both regular and After-Final communications.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
